

Chargers Collective Commitments: EXTRA TIME AND SUPPORT

We commit to providing **extra time and support for students that occurs immediately**

when a need is identified.

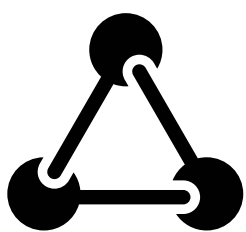

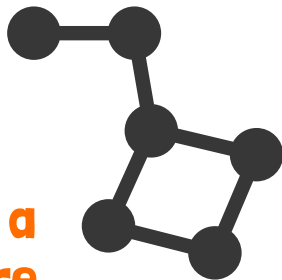

We commit to providing extra time and support for students in

small, targeted groups based on need.

We commit to providing extra time and support for ALL students while

not creating a system where intervention

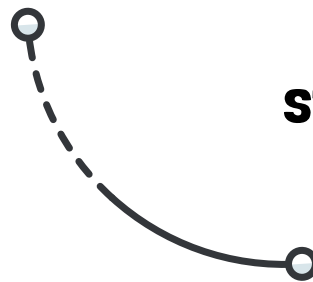

is viewed as a negative opportunity.

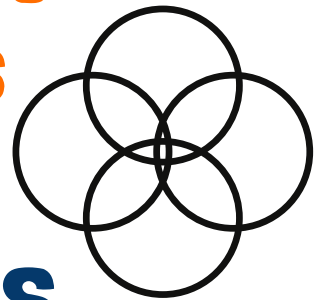

We commit to a **tiered approach to intervention**

We commit to providing **extended learning opportunities**

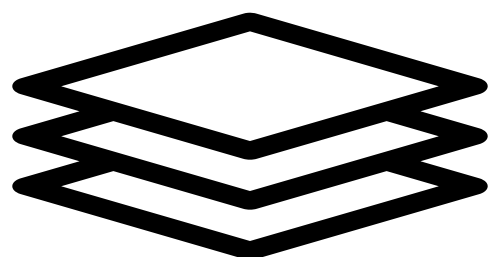

that deepen a student's learning in essential standards and real-world application.

We commit to utilizing the **collective talents and abilities**

of our staff to ensure that **ALL** students learn at high levels.

with tier 1 being what ALL students receive, tier 2 focused on targeted support that prevents a student from falling behind their peers, and tier 3 intensive support that helps students close the academic gap with their peers.
