LEARNING
FRAMEWORK

Our
PLC
Winner!

Why PLC's?

It connects:

- shared leadership
- high levels of student learning
- **BEST PRACTICE!**

What Now?

Priority:

1) Establishing a PLC Culture

- A. What do I want my students to learn?
- B. How will I know that it has been learned?
- C. What will I do if they didn't learn it?
- D. How do I extend and enrich learning for those who already know it?

2) Intervention Connection

-If you don't begin some PLC process, when will you talk about how the interventions are working, student benchmark data, develop common formative assessments, discuss progress, make adjustments?
