

KINGSTON ELEMENTARY

DATA PRESENTATION PROTOCOLS

NORMS

- Teams will bring data focused on essential standard(s).
 - Grade level view
 - Classroom view
- Teams will bring RTI chart or sorting process centered around data, a copy of the assessment, and any other relevant information.
- Presentations will be team led.
- Presentations will remain student centered and solution focused.

QUESTIONS TO ADDRESS

- What assessment data did you bring to discuss as a team?
- What are the proficiency rates of each targeted standard in individual classrooms? What are the overall team proficiency rates for each target you assessed?
- What patterns or trends do you notice when looking at the data?
- What common misconceptions do you see?
- Are proficiency levels higher in some classes than others?
- Are there some successful strategies you can share with your colleagues?
- How will your team address students that need additional instruction? How will you address students who need intervention?
