PLC Feedback Form	, included the second of the s
	Unpack Standard(s) and Select Learning Targets
Meeting Date:Team:	Use Student Growth Data to Evaluate Effectiveness  Targets  Establish Common Assessments and Scoring Criteria
Members Present:	
	Adjust Instructional Strategies to Meet Individual Student Needs  Score Assessments and Analyze Data  Set Student Growth Goals  Plant and Implement Instructional Strategies
Which part of <u>The PLC Process</u> did you focus on?	Create and Revisit Norms and PLC Procedures
	Communicate with Students and Parents  Foster a Safe and Positive Learning Environment
Meeting Outcomes:	
Plan for Next Meeting:	
·	
Administrator Comments:	
·	

# 3 BIG IDEAS OF THE PLC PROCESS

BIG IDEA 1: A FOCUS ON
LEARNING
BIG IDEA 2: A
COLLABORATIVE
CULTURE
BIG IDEA 3: A RESULTS
ORIENTATION

# **Essential Standards Unit Plan**

Use the four-step process (page 89) to complete the following plan.

T					10				ш	ш
	ω	2.	1.	Assessment (Which target or targets are being assessed? How will the assessment be used? Is it a common or individual assessment?)	Student-friendly learning targets:		Knowledge Targets		End-of-unit assessment:	Essential standard:
			,		 ng targets:		Reasoning Targets			
				Connecti How will this as for successful m		,				
				Connection to Standard (How will this assessment set up students for successful mastery of the standard?)			Performance Skills Targets			
				Student Involvement (How will students engage in the assessment process?)			Product Targets	Instructional days needed:	When taught:	☐ Knowledgë ☐ Reasoning
				lime Line						☐ Performance skills ☐ Product

# **Critical Issues for Team Consideration**

Team Members:  "Use the scale below to indicate the extent to which each of the following statements is true of your team."  1	Team Name:						
1 2 3 4 5 6 7 8 9 10  Not True of Our Team Our Team Is Addressing True of Our Team  1. We have identified team norms and protocols to guide us in working together.  2. We have analyzed student achievement data and have established SMART goals that we are working interdependently to achieve.  3. Each member of our team is clear on the essential learnings of our course in general as well as the essential learnings of each unit.  4. We have aligned the essential learnings with state and district standards and the high-stakes exams required of our students.  5. We have identified course content and/or topics that can be eliminated so we can devote more time to essential curriculum.  6. We have agreed on how to best sequence the content of the course and have established the proficiency standard we want each student to achieve on each skill and concept examined with our summative assessments.  14. We have agreed on the criteria we will use in judging the quality of student work related to the essential learnings of our course and we practice applying those criteria to ensure consistency.  15. We have identified the proficiency standard we want each student to achieve on each skill and concept examined with our summative assessments.  16. We have agreed on how to best sequence the content of the course and have established the proficiency standard we want each student to achieve on each skill and concept examined with our common assessments.  18. We have agreed on the criteria we will use in judging the quality of student work related to the essential learnings of our course and have provided them with examples.  18. We waluate our adherence to and the effectiveness of our team norms at least twice each year.  19. We have identified strategies and created instruments to assess whether students have the prerequisite knowledge and skills.  9. We have developed strategies and created instruments to assess whether students have the previous developed strategies and systems to assist students in acquiring prerequisite kno	Team Members:

cols to guide us in working together.  2. We have analyzed student achievement data and have established SMART goals that we are working interdependently to achieve.  3. Each member of our team is clear on the essential learnings of our course in general as well as the essential learnings of each unit.  4. We have aligned the essential learnings with state and district standards and the high-stakes exams required of our students.  5. We have identified course content and/or topics that can be eliminated so we can devote more time to essential curriculum.  6. We have agreed on how to best sequence the content of the course and have established pacing guides to help students achieve the intended essential learnings.  7. We have identified the prerequisite knowledge and skills students need in order to master the essential learnings of our course and each unit of this course.  8. We have identified strategies and created instruments to assess whether students have the prerequisite knowledge and skills.  9. We have developed strategies and systems to assist students in acquiring prerequisite knowledge and skills when they are lacking in those areas.  10. We have eatablished the proficiency standard we want each student to achieve on each skill and concept examined with our common assessments.  12. We have developed common summative assessments that help us assess the strengths and weaknesses of our program.  13. We have established the proficiency standard we want each student to achieve on each skill and concept examined with our common assessments.  14. We have established the proficiency standard we want each student to achieve on each skill and concept examined with our common assessments.  15. We have agreed on the criteria we will use in judging the quality of student work related to the essential learnings of our course and each unit of the course and have provided them with examples.  16. We evaluate our adherence to and the effectiveness of our team norms at least twice each year.  17. We use the results o							
ative assessments that help us to determine and processes of the school to ensure they	cols to guide us in working together.  2 We have analyzed student achievement data and have established SMART goals that we are working interdependently to achieve.  3 Each member of our team is clear on the essential learnings of our course in general as well as the essential learnings of each unit.  4 We have aligned the essential learnings with state and district standards and the high-stakes exams required of our students.  5 We have identified course content and/or topics that can be eliminated so we can devote more time to essential curriculum.  6 We have agreed on how to best sequence the content of the course and have established pacing guides to help students achieve the intended essential learnings.  7 We have identified the prerequisite knowledge and skills students need in order to master the essential learnings of our course and each unit of this course.  8 We have identified strategies and created instruments to assess whether students have the prerequisite knowledge and skills.  9 We have developed strategies and systems to assist students in acquiring prerequisite knowledge and skills when they are lacking in those areas.	dard we want each student to achieve on each skill and concept examined with our common assessments.  12. We have developed common summative assessments that help us assess the strengths and weaknesses of our program.  13. We have established the proficiency standard we want each student to achieve on each skill and concept examined with our summative assessments.  14. We have agreed on the criteria we will use in judging the quality of student work related to the essential learnings of our course, and we practice applying those criteria to ensure consistency.  15. We have taught students the criteria we will use in judging the quality of their work and have provided them with examples.  16. We evaluate our adherence to and the effectiveness of our team norms at least twice each year.  17. We use the results of our common assessments to assist each other in building on strengths and addressing weaknesses as part of a process of continuous improvement designed to help students achieve at higher levels.  18. We use the results of our common assessments to identify students who need additional time and support to master essential learnings, and we work within the systems					
	ative assessments that help us to determine						

# ESSENTIAL STANDARD

# I will know I'm awesome when:

I can use a punnett square to predict what trait or characteristic (physical feature) a child may be born with.

How	did I do?
	I have mastered the essential standard.
	I'm almost there and I'm on my way to mastering the essential standard.
After	mv extra effort, how did I do?

### **Imagine Norms**

Going from this ....

To this.....

Start and end on time.

We will co-create an intervention plan
Within 2 days of giving the common
Assessment.

"Team norms are not intended to serve as rules but rather as collective commitments-public agreements shared among the members."

**Norm light:** Deciding how often to meet, start and stopping time, participation, paraphrasing when we want to ensure we understand the other perspectives, coming prepared for meetings, looking for ways to celebrate work, using technology only to support the process, following written agendas, etc.

Examples:

Be on Time.

Tech used only to support the process

**Norm Heavy:** How soon before a unit will the common formative assessments be created? How soon after formative assessments are given are they to be graded? How many formatives will be co-graded to ensure inter-rater reliability? How long after the assessment will results be compared? How long after results are compared will a plan for intervention and extension be implemented? Will students be traded for a day or two for immediate intervention and extension days after CFA?

When our norms are broken, we will:

We will notify administration when:

#### Examples:

- Create common formative assessment at least one week prior to unit start.
- Formative assessments must be graded and data compared within one week of given day
- Plan for intervention will be created the day data is compared

"Each year is a process of visiting, refining, and getting better-a culture of continuous improvement."

# **Preparing For Next Year-August 2019**

#### **Team Collaboration:**

- Pacing guide (1<sup>st</sup> nine weeks/1<sup>st</sup> semester)
- 1<sup>st</sup> unit plan (essential standards, learning targets, common assessments)
- Evaluate your assessments: determine level of rigor for each question/match learning target-standard to questions

# Things to think about for next year:

- Grading consensus among data teams (protocols for late work, homework, zeros, lowest grade, giving 100's for non-academic tasks, etc.)
- School-wide Writing Non-Negotiables
- Create a google classroom for sharing data team docs with admin

# **Summer Reading by the pool:**

- Kid by Kid, Skill by Skill by Robert Eaker & Janel Keating
- Chapter 4: Using the Effective Teacher's Toolbox

Have an AWESOME & SAFE summer!
