

Our history teams and several others use Canvas to intervene and retest during advisory. Because every student has advisory every day, students are not limited by their ability to come in early or stay late. Below is an example of the Canvas module.

The screenshot shows a vertical list of items in a Canvas LMS interface. At the top is a grey header bar containing a hamburger menu icon, a downward arrow, and the text "Unit 6: Industrialization RETEST". Below this is a white bar with a green vertical bar on the left, containing a hamburger menu icon, a document icon, and the text "Unit 6 REVIEW". A horizontal line separates this from the next item, which is also in a white bar with a green vertical bar on the left, containing a hamburger menu icon, a rocket icon, the text "Unit 6 Re-Test", and the date and points "Mar 10 | 10 pts".

- Unit 6: Industrialization RETEST
- Unit 6 REVIEW
- Unit 6 Re-Test  
Mar 10 | 10 pts

Students earn a particular score on the review to unlock the re-test, ensuring students have taken the time to exhibit mastery of objectives before improving their grades.
