Hey [Redacted]

I just wanted to let you know that my daughter is in 8th grade advanced science at MJH. [Redacted] is her teacher and she is doing a fantastic job! She is [Redacted]'s favorite teacher and she has learned so much this year!

They, of course, are in their chemistry unit now, so my daughter comes home with a million questions asking me to expand on what they learned. Nicole is doing a great job with them, so much so, my daughter has such a good grasp on the periodic table and the atomic structure that I was able to explain both isotopes and ions to her tonight! She totally got it too! )

Anyway, I emailed [Redacted] to thank her, but I also thought you should know what a great job I think she's doing! Praying the kids retain all that goods info for 10th grade! :-)
