

The FHSPLC Website - Fulton High School, Missouri

In order to further provide support to our instructional data teams, we also created the [FHSPLC](#) (Fulton High School Professional Learning Community) website (also linked here at <http://fhsplc.weebly.com/>) to streamline our work. The FHSPLC gives teachers access to our Mission, our Vision, our Common Commitments, a [Weekly Meeting Log](#) (available [here](#) and from our individual [team pages](#), which are accessible [here](#)) to document their work, and easy access to their past Weekly Meeting logs to provide consistency for their work (linked [here](#)). We also included a system by which teachers could easily share the products of their collaboration--their data cycles, their common assessments, their priority standards, etc. Within the FHSPLC, we provide a [Resources](#) page on which resources are linked so teachers can easily locate all past PD documents as well as access websites that detail the various aspects of PLC work. The FHSPLC also has a [Portfolio](#) where we share our practices and celebrate our successes.
