Notes for Our Teams

1. Each team has its own page linked above under "Our Individual Team Pages."
2. As you meet, please record your meeting notes within the form that appears on your individual team page. You will be able to note whether your meeting is a regular meeting, a data meeting, or a tuning protocol. The various types of meetings are described on the individual team pages.
3. At the end of the Weekly Meeting Log form, there is a section to record the agenda for your next meeting. There is a link on your individual team's page that will allow you to view your Weekly Meeting Logs (and, therefore, your agendas) after they have been submitted.
4. Please be sure to complete one data cycle per quarter.
5. As you work within this website, please share any problems or suggestions with the Leadership Team.
6. You may also request that your individual team page be updated with information specific to your team, such as your team's specific norms.
