

Iowa School Performance Profile Scores and Designation 2018-2023

Our school began its journey in 2018 with a Comprehensive Year 1 ESSA designation, which was a tough pill to swallow. Although we are a small school, we knew we had to make the PLC process work for us and for our students. As the following graphs show, there is an upward trend in all areas, and we have grown from a “Priority” designation to a “Commendable” designation. This past year, in 2023, we received our highest score yet and were just shy of being a “High Performing School.” As we refine our skills and processes, we expect to see continuous improvement and sustained growth.
