

Math 6 - Essential Learning (Advanced and Standard)

<u>Essential Skill</u>	<u>Test date</u>	<u>Test date</u>	<u>Test date</u>	<u>Test date</u>	<u>Mastery Date</u>
1. I can solve problems that have decimals					
2. I can find the GCF and LCM of two numbers					
3. I can convert fractions (with denominators of 2, 3, 4, 5, 8, 10, or 100), decimals, and percentages.					
4. I can plot ordered pairs on a coordinate plane					
5. I can find the distance between points on a coordinate plane					
6. I can solve problems using unit rate					
7. I can evaluate algebraic expressions using order of operations					
8. I can graph inequalities on a number line					
9. I can solve one step equations and inequalities					
10. I can find the area of a polygon (triangles, parallelograms, and trapezoids)					
11. I can find the measure of center (mean, median, mode)					
12. I can find the measure of variability (range and IQR)					
13. I can create data displays (dot plot, histogram, and box plot)
