Below are the Key Outcomes for **MCE Elementary School** for the 2020-21 school year.

Points of pride from our school last year are:

1. National Showcase School Nominee for Capturing Kids Hearts (after only one year of implementation)- we were told during this process that the Flippen Group has not been a part of a school with such a strong and positive culture for children and adults in an extremely long time. They were encouraged by the feedback from our parents, students, and teachers.
2. PLC Process at McDeeds Creek is incredible to see and be a part of every day. I would challenge any school's PLC process to our own. Teachers collaborate, form CFAs together, and use the CFA data as a pre and post test to pounce on proper lesson planning. Walk thru data reveals that the PLC process is working- teachers are aligned and all working towards a common goal. Our school's PLC process was highlighted by the NC DPI Curriculum & Instruction Team.
3. Our students and staff have been constant award recipients throughout the school year: many district and state winners in young authors, multiple district and state winners in the district art contests, our first math club won the state championship (beating tons of private and charter schools in NC), 2 of our students won the State Science Contest, our K-Kids are being recognized by the state and national Kiwanis Clubs for their service projects and servant leadership, etc. Our school continues to be a place of high expectations, but of love, support, and encouragement at the same time.
