Grade 5 CFA - Inferencing Common Formative Assessment

5.R.1: I can make inferences and support them with relevant text evidence.

Read the passage and answer the questions.

The Rodriguez family was very involved in their community. When the McDonnells' house was leveled

by a tornado, the Rodriguez's got the entire neighborhood to help rebuild the damaged home. Mr. Rodriguez and the other men worked on the roof, while Mrs. Rodriguez worked in the McDonnells' garden with some of the women. Jose Rodriguez and his older sister, Angela, helped paint the walls. Jose tried painting with a roller brush, but he couldn't reach very high. He jumped as high he could and splattered paint all over the windows. Angela shook her head and walked inside the house. Jose looked up and smiled when he saw Angela carrying a footstool. Jose stood on the stool while Angela showed him how to use the roller brush.

1. Based on the passage, you can infer that:

- a. The Rodriguez's are selfish.
- b. Jose wants to work in the garden.
- c. Jose is not an experienced painter.
- d. The McDonnells' house was beautiful.

2. Which detail from the passage supports the inference that Angela is helpful?

3. Make an inference about the **community** that the Rodriguez family lives in and support your inference with evidence from the text. Write your answer in complete sentences.

Grade 5 - Inferencing

Common Formative Assessment Scoring Rubric

5.R.1: I can make an inference and support it with relevant evidence.

Question	Total Points	Scoring Guidelines (Students must score 3 out of 3 total points for proficiency)	Proficiency Scale
1	1	Student correctly chooses C	4/4 = Green 2/4 or 3/4 = Yellow 1/4 or 0/4 = Red
2	1	Studently correctly writes that: <ul style="list-style-type: none">• Angela carries a footstool for Jose• helps paint the walls -or-• shows him how to use the roller	
3	0 1 2	Students receive a point for: <ul style="list-style-type: none">• Inferring that the community is <u>helpful</u> or <u>caring</u>• Writing a piece of relevant text evidence that supports their inference<ul style="list-style-type: none">○ “the entire neighborhood worked to rebuild the damaged home”
