

S.M.A.R.T Goal

Social Studies

2019-2020

Using a variety of reading comprehension strategies we will improve student literacy by providing opportunities for students to use short text including primary and secondary sources to support and draw conclusions.

S- Use primary and secondary sources, short readings during instruction.

M- We will track every nine weeks and collected data from students samples (warm up's, exit tickets, short answers)

A- Teachers will model strategies that will be incorporated in daily instruction and move to higher level text as students comprehension grows.

R- Social Studies students need to be able to decipher main ideas, bias, point of view, and purpose within written text.

T- As a team we will look at student samples at the end of every unit and determine gaps.
