

Name: _____

5th Grade Unit 4 Assessment- Algebraic Thinking Assessment Score: ____/20 _____%

Highlight the questions that you answered correctly. Circle the percentage %. For example, if you got 1 out of 3 then your percentage would be 33% for that skill.

5.4B Represent and Solve Multi-step Problems (variable for unknown)				5.4C Generate numerical pattern (Rule: $y=ax$ or $y=a+x$) & graph			
#1	#4	#7		#2	#5	#6	
_____/3 100% 66% 33% 0%				_____/3 100% 66% 33% 0%			
5.8A Describe Key Attributes of Coordinate Plane				5.4E Describe meaning of parentheses and brackets			
#3				#8			
_____/1 100% 0%				_____/1 100% 0%			
5.4F Simplify Expressions Order of Operations				5.8C Graph Ordered Pairs in Quadrant I (Patterns & Input/Output Table)			
#9	#10	#13		#12	#14		
_____/3 100% 66% 33% 0%				_____/2 100% 50% 0%			
5.8B Describe Process of Graphing Ordered Pairs (Quad 1)				5.3L Divide Whole Numbers and Unit Fractions			
#11	#19			#18			
_____/2 100% 50% 0%				_____/1 100% 0%			
5.3K Add and Subtract Positive Rational Numbers Fluently				5.3E Multiply Decimals (products to hundredths)			
#16				#17			
_____/1 100% 0%				_____/1 100% 0%			
5.4D Multiply Decimals (products to hundredths)							
#15	#20						
_____/2 100% 50% 0%
