

Team Data Analysis Protocol

1. Take 5 minutes to **analyze** the data and make observations.

What did you notice?
(factual findings)

❖

❖

What did you wonder?

(questions raised or challenging statements)

❖

❖

2. What is our plan to enrich and extend the learning for students who are highly proficient?

3. Which of our students need additional time and support to achieve at or above proficiency on any essential learning? How will we provide that time and support?

What is an area that my students struggle in?

What did my teammates do to perform well in that area?

What skills did proficient students demonstrate in their work to set it apart?

Plan the next CFA to reassess this essential. What date and what time will this be given? Under what circumstances?

Date:

Action Step: Take 5 minutes to take the strategies listed and apply them to your action plan.
