Happy Friday. Just a couple of concerns for today.....

[REDACTED] as come in late the last 2 days. It is reported to us that he has refused but then he is transitioned over individually. Is there a reason that he is transitioning individually or should he coming with the group?

[REDACTED] threatened to assault Mr. [REDACTED] when he corrected her behavior. She attempted to cover the CO2 alarm. She actually was trying to intimidate a sub that was in the class.

I know it's still early but that is it for the day.

I'm looking forward to the Prom pictures. I'm so sorry that I cannot be there.
