

Unit 5 Exit Tickets and I Can

You can do it!

Monday 28th	Tuesday 29th	Wednesday 30	Thursday 31	Friday 1
I can multiply a whole number by a fraction and explain my answer.	I can use labels sketches to multiply a whole number by a fraction in a story problem	I can when given 3 numbers I can generate a combination of times a fraction to get the closest to one and explain my thinking	I can use words to explain how I solved a whole number multiplied by a fraction	

Tuesday

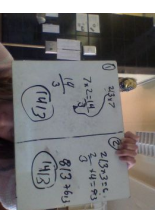

2- how many meters? This is KM

Wednesday

5/12 x 60 = 30/12 I think it is most efficient is the of strategy because i new that 5x6=30 and so i just did 30 and out my denominator to get 60/12.

Monday

Thursday

I found this answer effectively because i switched around the numbers i did 27/7 x 6 and i thought that that was the most efficient way. I think this strategy works because when you do this it makes it easier to solvent doing 5.27 times.
